**Section A**

<p><b>1. Is there anything that you would have liked covered that was omitted from the course?</b> Better knowledge on CBCT; more cases; cements</p> <p><b>2. In your view what was the most successful and/or useful aspect of the course?</b> Managing failure; honest; practical tips; discussion of sand blasting, resin-bonded bridges; outstanding tips; all of it; cases that Peter Briggs used; great black and white discussion; evidence based; up to date information / techniques really helpful</p> <p><b>3. In what way do you think that this course will have influenced you or changed your practice?</b> Realistic examples; to be more careful; very clinically relevant; better understanding of adhesive dentistry; excellent update; more adhesive restorations; re-invigorating; consider evidence; increased use of resin bonded bridges; definitely enhanced my practical skills / altered practice</p>
--

**Section B** Please consider the following statements and decide if they clearly reflect your views.
